John Manhart

Product Designer / Developer from Kansas City

I consider myself a Designer that can develop
or a Developer that can design.

2017 – Present

Garmin

UX Designer II

Worked apart a large UX team focusing on features
for the vívo series of wearables for the Garmin
Connect mobile application (iOS & Android).

2016 – 2018

Mosey

JavaScript Developer & UX Designer

Worked remotely for a small 4 person team to build
a mobile application with react-native for rating and
scoring resturants.

2013 – 2017

Marlin

UX Developer

A full service digital advertising agency. My role was to
design and develop web and mobile applications. Clients
include Bush's, Starbucks, Unilever, and French's.

Class of 2013

Missouri State University

BFA Visual Design & Illustration

Dual major with an emphasis in Visual Design
and Illustration.
