Oh Hey, Im John Manhart!

I am a Product Designer and Developer living in
Kansas City and I love my profession.

My first experience with inVision was in design school, and I
remember my head **exploding** when I built my first prototype.
It was love at first prototype. My greatest strength as a Product
Designer is my ability to rapid prototype ideas. Early ideas are
very fragile and difficult to communcate and fast feedback
is essential. I strongly believe that one prototype is worth
a 1,000 meetings.*

I was so thrilled when I found out inVision is a 100% remote team.
Also, I have worked remote before and know I can hack it! The idea
of working apart a product team that sits at the intersection of
design, collabortation and dev cordination would be a dream.
Thats why I feel with my passion, love for design, and drive
I would be a great addition to the team at InVision.

✌️
